Before, scarves that were used as a long bow tie and presented a classic look are taking up more and more space day by day. Men's fashion is significantly influenced by this change in the use of scarves. The scarf technique that is attached to the outside of the collar is replaced by scarves that are attached to the inside of the collar, giving a nice look. To complete your combination with a scarf, it is enough to choose the right colour, pattern and fabric. Especially scarves selected with suits and shirts can sometimes be used in place of ties. Scarves that can be used both day and night can sometimes create different styles. For example, to achieve a modern look, you can select your scarf with a suit or shirt in basic colors like black and white. For a more sporty look, you can choose a scarf with a crepe fabric in a more vivid color and pattern and combine it with fabrics like a sweater as you like. When tying your scarf, it is enough to pass both ends through each other like a loose knot and insert the ends into the collar.
